Dear Doctor:

Treatment supplies like cotton rolls, gloves, disinfectants, toothbrushes, and more make up 10-15% of your total overhead. Peripheral disposable and consumable supplies are a major operating expense for any orthodontic practice.

An easy way to save on over 6,000 choice supplies is through a progressive business concept called Ortho Club. Ortho Club offers top brand supplies from names like G&H Orthodontics, Reliance, Kodak, Adenna, Whip Mix and many more. Ortho Club started in 1994 and is a wholesale buying club based on the business model of Sam's Club or Costco. We buy in large volume and sell at low margin. The result is significant savings on overhead costs without sacrificing quality or service. Another added benefit of Ortho Club is that you are purchasing supplies from a strictly orthodontic company, which means all purchases stay within the Orthodontic Industry.

A membership in Ortho Club costs only $400 per year, so the savings easily exceed the cost. Membership means your staff can call one number and know they are getting the best prices available on necessary supplies. We invite you to join the hundreds of Orthodontists who already take advantage of Club Membership.

Sincerely,

Jon Sweitzer
Director of Sales and Marketing

Nickel Titanium Archwires

World Renowned G&H® Archwires Are Now Available Through The Ortho Club®

G&H® Orthodontics

G4™ Nickel Titanium Archwires

G4™ Nickel Titanium Archwires are the culmination of years of research and development by G&H® Orthodontics. The uniquely enhanced performance and consistency of **G4™ NiTi** is the result of material science pioneered by G&H®.

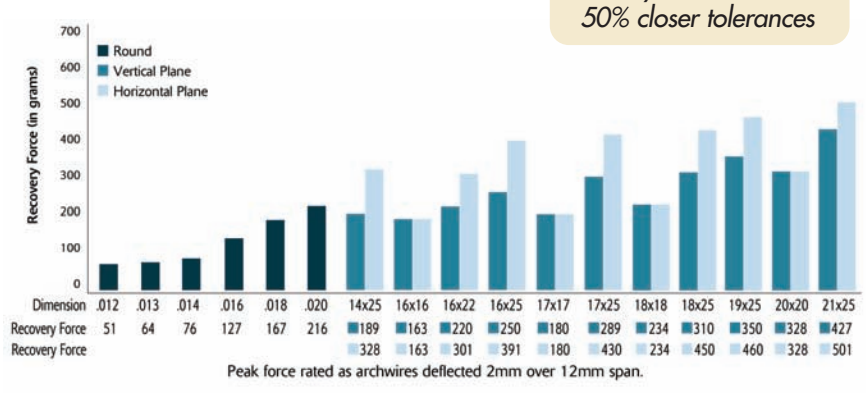
The **G4™** alloy coordinated with proprietary G&H® manufacturing and testing procedures guarantees the force, memory and elasticity properties are consistent as documented.

What is G4™ NiTi?

G4™ Nickel Titanium Wire is the result of years of research and development by G&H® Orthodontics. G4™ NiTi is made possible by the vast experience and expertise that G&H® has developed in working and controlling Nickel Titanium. G4™ NiTi is superior due to refinements and advancements by G&H® in several key areas:

1. **Material Science**
2. **Precision Manufacturing Processes**
3. **Scientific Testing Protocols**

G&H® Orthodontics archwires exceed Industry standards with 50% closer tolerances



Recovery Force of G4™ Nickel Titanium

G&H® wires must satisfy 23 quality inspection standards before being sold.

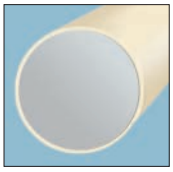
Tooth-Colored NiTi/Beta Titanium Archwires

World Renowned G&H® Archwires Are Now Available Through The Ortho Club®

G&H® Orthodontics

Tooth-Colored/Epoxy Coated G4™ Nickel Titanium Archwires

Tooth-Colored Nickel Titanium archwires are epoxy coated and necessitate the use of base wires that are .002" smaller than the final coated dimension. Consider this when selecting wires to ensure performance will be compatible with treatment objectives. Tooth-Colored NiTi wires are ink midline marked for symmetrical identification.



Epoxy Coating - High Durability

G&H® ORTHODONTICS

G&H® OrthoForce®

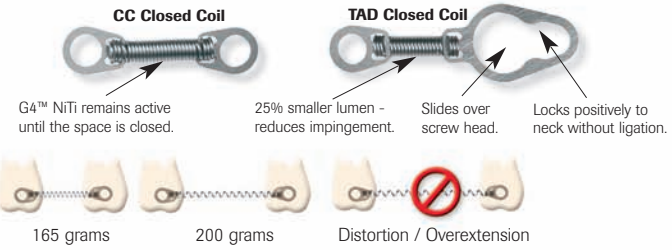
– Precision Manufactured By G&H® Orthodontics –

Closed Coil Spring Systems™

G4™ Nickel Titanium Spring Kits – CC or TAD Designs

The unique **G4™ Nickel Titanium** alloy developed by G&H® is precision formed into closed coil springs. G4™ Springs provide consistent force and remain active until the space is closed.

Use the G&H® Spring System:
- Know the force applied.
- Eliminate overextension and distortion of the coils.



There are **NO** constant force springs – The amount of extension determines force applied, overextension distorts coils permanently.

G4™ Nickel Titanium Springs

The unique G4™ Nickel Titanium alloy developed by G&H® is precision formed into closed coil springs. G4™ Springs provide consistent force and remain active until the space is closed. Consistent force values and full recovery are both achieved routinely with G4™ NiTi Springs.

Elastomerics

The Ortho Club proudly offers G&H® branded elastomeric products, which are designed to maximize clinical functionality and treatment efficiency.

All elastomerics should be stored in a cool, dry, dark area for maximum preservation. Exposure to light, whether natural or artificial, has detrimental effects on resiliency and tear strength.

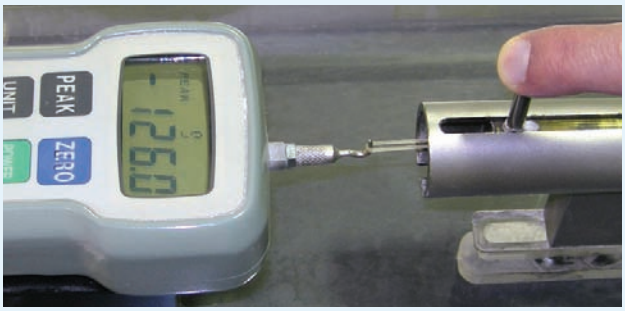
...About G&H® Elastics

G&H® uses only Surgical Class I Grade natural latex with exacting I.D. and O.D. tolerances.

G&H® precision cutter blades are sharpened multiple times daily. A clean precision cut ensures consistent expansion and force values.



G&H® calibrated load cell testing during production ensures exact and consistent force values. Elastics are tested at the industry standard expansion of 3 times passive diameter. Elastics are also 100% visually inspected and quality checked.

Instruments

Orthopli Corporation has manufactured high quality, hand-crafted, orthodontic instruments for over 30 years. Orthopli only uses selected surgical stainless steel with box and lab joints and hardened alloy inserted tips to ensure longevity.

G&H® instruments are all made of corrosion resistant stainless steel with a brilliant finish that's able to withstand all acccepted sterilization methods. Each instrument is designed for high performance & durability.

Ortho-Pli

G&H® ORTHODONTICS

Care & Sterilization of Orthodontic Pliers

Clean instruments thoroughly, rinse and dry before sterilizing. After sterilizing, lubricate very sparingly. One drop or a light spray is sufficient. Wipe off excess lubricant.

Always lubricate after sterilization, because lubricants, waxes, and "sticky joint" remedies vaporize inside sterilization equipment and will saturate all other items placed in the chamber.

Over-use of lubricants or "sticky joint" treatments is the major cause of staining or discoloration of instruments. Brown or yellow stains generally can be removed by scrubbing with Type A steel wool saturated with isopropyl alcohol.

Clinical Supplies

Clinical supplies, specifically disposables and consumables, are necessities in any orthodontic office. Statistics show that a third of a practice's cost of goods are disposable and consumable products. The Ortho Club offers a wide selection of name brand, low cost disposable and consumable treatment supplies, all at wholesale prices.
